RELEVANT EXPERIENCE

Freelance Frontend Developer & Project Manager

Neko Services | July 2025 – 2026

- Managed end-to-end client communications, gathered technical requirements, and defined project scope for custom web applications.
- Spearheaded rapid Agile development sprints to build and deploy functional frontend prototypes using Next.js, Tailwind CSS, and Firebase, facilitating team collaboration through Git version control.
- Facilitated continuous integration and iterative debugging based on client and academic panel feedback, ensuring the final product met strict technical requirements for successful deployment.

Freelance Web Developer / Intern Web Master

AGGTEDeck Enterprises Incorporated | November 2020 – April 2026

- Developed and launched a construction landing page website for a company selling WPC products
- Modernized the legacy Vanilla PHP website by migrating the architecture to a new, optimized codebase, significantly improving maintainability and performance.

RELEVANT PROJECTS

Capstone Project

Balagtas SocialCare

Built with Laravel + React via Inertia.js

A civic web application made for the MSWDO of Balagtas Bulacan to digitally transform their paper-based services-related transactions and data management.

Freelance Capstone Project

Yamaha Motors TMS
